PROFESSIONAL SUMMARY

Computer Science graduate currently pursuing an Advanced Diploma in Computer Science part-time, with practical experience in full-stack development using Java, Spring Boot, React, and Node.js. Experienced in RESTful APIs, SQL databases, JWT authentication, and AI-powered applications. Seeking a Junior Software Developer or Software Engineering Internship opportunity.

EDUCATION Tshwane University of Technology (TUT) Advanced Diploma in Computer Science (Part-Time) | January 2026 – December 2027 | In Progress

Diploma in Computer Science | January 2022 – December 2025 | Completed

TECHNICAL SKILLS

Languages: Java, JavaScript, SQL, HTML5, CSS3

Frameworks & Libraries: Spring Boot, React, Node.js, Express.js, Prisma ORM, Java EE, JSP, EJB

Databases: PostgreSQL, MySQL, JPA, JPQL

Tools: Git, GitHub, Docker, Postman, Thunder Client, Visual Studio Code, IntelliJ IDEA, NetBeans

Concepts: RESTful APIs, OOP, JWT Authentication, Authentication & Authorization, Database Design, Microservices, Agile Development

PROJECTS Identity Service

Java | Spring Boot | Spring Security | JWT | PostgreSQL | React Status: In Progress

A centralized authentication service that provides user registration and login using JWT authentication for multiple applications. The service is integrated with other applications to provide centralized authentication.

GitHub: [Repository Link](#)

AI SQL Analyst

React | Node.js | Express.js | PostgreSQL | Gemini API Status: In Progress

An AI-powered application that allows users to query a PostgreSQL database using plain English. Gemini converts the user's question into an SQL query, executes it against the database, and displays the generated SQL and query results. Login and registration are handled through the centralized Identity Service.

AI BI Dashboard

React | Node.js | Express.js | PostgreSQL | Gemini API Status: In Progress

An AI-powered dashboard that allows users to upload and analyse Excel data. The application processes the uploaded data and presents results through KPIs, charts, tables, and AI-generated insights. Login and registration are handled through the centralized Identity Service. GitHub:

PROFESSIONAL EXPERIENCE Software Developer Intern – Work-Integrated Learning ICEP – Informatics Community Engagement Programme | eMalahleni, Mpumalanga July 2025 – December 2025

- Developed responsive web applications using React and Node.js.
- Built and tested RESTful APIs using Postman and Thunder Client.
- Worked with Prisma ORM, MySQL, and PostgreSQL on database-driven applications.
- Implemented user authentication and Role-Based Access Control (RBAC).
- Used Docker, Git, and GitHub for development and version control.
- Participated in Agile practices including sprint planning, daily stand-ups, and team collaboration.

HACKATHONS & LEADERSHIP Maish 2025 Hackathon – Scrum Master

- Led a development team during a three-day Agile hackathon and coordinated sprint planning, task allocation, and delivery.

Telkom 10X Hackathon

- Collaborated with a multidisciplinary team to solve programming and system design challenges during a two-day competition.
